Problem Solving–Basic 🔗
HackerRank
It covers fundamental topics related to data structures, including arrays, strings, and sorting algorithms

📇 PROFESSIONAL SUMMARY

Dynamic and detail-oriented Frontend Developer with expertise in React.js, JavaScript, HTML, and CSS. Skilled in creating high-quality, responsive user interfaces and integrating frontend components with server-side APIs. Strong problem-solving abilities, excellent teamwork, and swift adaptability to new technologies, including Generative AI.

🖥️ PROJECTS

1. Walmart Clone | ⊕ | ☺
JavaScript | HTML5 | React | Chakra UI

- Developed a functional clone of Walmart's e-commerce platform using React and Chakra UI.
- Implemented key features like product browsing, user engagement, and shopping cart with local storage data management.
- Handled frontend development, JSON integration, and JavaScript functionalities to optimize user experience.

2. Bluefly Clone | ⊕ | ☺
JavaScript | Bootsrap | HTML5 | CSS3

- Created a clone of the Bluefly e-commerce platform with HTML, JavaScript, CSS, and Bootstrap.
- Implemented essential features including product catalog management, user authentication, and responsive shopping cart functionality.
- Ensured advanced filtering and sorting options, enhancing user browsing experiences.

3. Milap Clone | ⊕ | ☺
JavaScript | HTML5 | CSS3

- Designed a static, one-page clone of the Milaap fundraising platform using HTML, JavaScript, and CSS.
- Presented clean, user-friendly layouts showcasing fundraising campaigns and donation options.
- Incorporated responsive design elements to enhance the site's accessibility across devices and platforms.

4. PharmEasy Static Clone | ⊕ | ☺
JavaScript | HTML5 | CSS3

- Developed a visually appealing static website clone of PharmEasy using HTML, CSS, and JavaScript.
- Created sections for product categories and promotional banners to enhance the user experience.
- Implemented a user-friendly interface ensuring easy navigation and accessibility.
- Optimized the static layout to maintain consistent performance across various browsers and devices.
- Applied best practices in frontend development to ensure code quality and maintainability.
